

## *Daryl D. Deitz*

*Daryl was born and raised in Skagit Valley, W.A. At an early age, he developed a bone disease, unable to participate in sports, he turned towards his love of drawing. After winning a contest in a nation wide youth art publication, also an article in a local paper about his art ( age 16 ) he became inspired to continue drawing.*

*His art has been used on commercial drawings, portraits, limited edition prints, calendars and donated to nonprofit groups. Daryl turned fifty in 2001 and is permanently disabled.*

*Today, he enjoys his passion of art with developing water colors. He's thankful to find a few hours a month to draw, because his joints are affected from his disease, even his hands. Nature drawings and paintings are his favorite.*

*Daryl can be reached at (360) 757-3560*
